📍 Moscow, Russia • Work permit: Russia • Open to business trips

PROFESSIONAL SUMMARY

Backend developer with 4+ years of experience in product development and integrations: from architecture design and API development to legacy modernisation and production deployment. Able to quickly navigate complex domains, reduce technical debt and improve system stability. Comfortable in Django stack (DRF, Celery, PostgreSQL) and .NET ecosystem, including event-driven approach (RabbitMQ, Dapr). Values transparency, ownership and engineering discipline: metrics, quality, maintainability.

WORK EXPERIENCE

Backend Developer

AR-systems, Moscow | March 2025 – Present | IT, System Integration

Responsibilities:

- Developed and maintained services on .NET Framework 4.5.7 and .NET 8
- Modernisation and refactoring: monolith decomposition, business logic migration, technical debt reduction
- Implemented asynchronous integrations via RabbitMQ
- Participated in event-driven microservice architecture design (Dapr, RabbitMQ)

Key achievements:

- Migrated legacy project from .NET Framework 4.5.7 to .NET 8
- Rewrote business logic with RabbitMQ message exchange
- Developed chat-bot in Go (Golang) for project tasks

Stack: C#, .NET Framework 4.5.7, .NET 8, RabbitMQ, Dapr, Go

Backend Developer

ANO "Human Capital Development", Moscow (hcdf.ru) | August 2023 – March 2025 | EdTech/HRTech

Products: technograd.moscow, dke.moscow, turniketovnet.ru, technopark-kids.ru

Responsibilities:

- Designed and developed backend modules for multiple platforms (portals, dashboards, service catalogues, integrations)
- Developed API and business logic (Django, DRF), reporting and data exports
- Release support: fixes, enhancements, stability improvements

Key projects:

- **Voluntary Qualification Exam (DKE):** Launched testing portal in 3 months; test constructor and moderation; competency assessment; employer cabinet; Excel reporting (pandas)
- **Technograd:** Backend for online course marketplace; access segmentation; analytics and exports; internal purchase notification bot
- Telegram WebApp bot, CMS for project landing pages

Stack: Python, Django, DRF, PostgreSQL, Celery, pandas, Nginx

Backend Developer

IThub International College, Moscow | September 2022 – May 2023 | Education

- Chat-bot for academic department (Python, aiogram, PostgreSQL, Heroku)
- Jobs and events platform (Nest.js, Fastify, PostgreSQL, React, Docker Compose)

Stack: Python (aiogram), PostgreSQL, Nest.js, Fastify, React, Docker

Freelance Developer

Self-employed | January 2022 – Present | Various projects

- **Custom furniture e-shop (Fullstack):** Architecture, Django+PostgreSQL backend, payment gateways, admin, frontend
- **Interior design services website (Fullstack):** Django backend, CMS, SEO, post-release support
- **Building materials e-shop (Fullstack):** Catalogue, CRM integration, order automation, analytics, KPI reporting

Stack: Python, Django, PostgreSQL, HTML/CSS/JS, Bootstrap, payment systems, API integrations

EDUCATION

Vocational Education (Secondary specialised)

IThub International College of Information Technologies | 2024

Information Systems and Programming, Web and Multimedia Development

SKILLS & COMPETENCIES

Python

Django

Django REST Framework

PostgreSQL

Celery

Redis

C#

.NET Core / .NET 8

RabbitMQ

Docker

Docker Compose

Git

REST API

SQL

Nginx

SQLAlchemy

Go (Golang)

LANGUAGES

Russian – Native

English – B1 (Intermediate)
